Hi Ryan,

As discussed yesterday, your Q4 25/26 commission is going to come out at £1,500 (gross). I have set the maths out below for the avoidance of doubt.

Q4 commission calculation

- Vintech retainer uplift (Jan): $£18,000 \times 2.5\% = £450.00$
- Pebblestone new business, organic (Feb): $£21,000 \times 5.0\% = £1,050.00$

Total: £1,500.00 gross

This will be included in your final pay alongside your last month's wages and any accrued but untaken holiday. Vanessa from HR (copied above) will pick it up so it should be straightforward to process through the April payroll run.

Thanks for landing the Pebblestone deal before you go. Really appreciate everything you've done for the team over the last 18 months, and the door is always open for a beer.

T.
